THEETAWAT PREMSAWAT

FRONTEND DEVELOPER

+66 64-6929339 | theetawat.work@gmail.com | Pak Kret, Nonthaburi

As a self-taught Frontend Developer, I leverage my organizational skills from an administrative background while expanding my coding expertise. I am passionate about crafting projects that enhance user experience and drive business success. Committed to continuous growth, I actively refine my skills in modern tools like React, TailwindCSS, TypeScript, and stay up to date with the latest Full-stack development trends.

EXPERIENCE

Frontend Development Bootcamp Participant
Borntodev Academy

Jun 2024 - Sep 2024

- Designed and developed a fully responsive web application as a Capstone Project, implementing best practices in UI/UX and leveraging tools like TailwindCSS and React.
- Gained hands-on experience in debugging, performance optimization, and version control using Git, simulating real-world development workflows.
- Integrated third-party APIs to extend the functionality of web applications and enhance user engagement.
- Acquired proficiency in building reusable and scalable components following modern development practices.

Freelance Frontend Developer

Dec 2022 - Apr 2024

- Designed and developed a landing page using WordPress for a Thai restaurant client in New Jersey, USA.
- Collaborated with the client to understand business needs and deliver solutions that align with their goals.
- Conducted website maintenance and updates to ensure ongoing functionality and security.

Administrative Assistant
Malaysia Hair Import Export Co Ltd.

Nov 2019 - Jun 2020

- Supported daily operations across multiple departments to ensure smooth business functions.
- Managed and organized company documents, ensuring accurate filing and retrieval processes.
- Managed a diverse range of administrative tasks, including correspondence, data entry, and inventory control.
- Provided exceptional customer service, resolving inquiries promptly and professionally.
- Facilitated effective communication and information sharing within the team.

Marketing Internship
Advanced Info Services Plc. (AIS)

Jun 2018 - Jul 2018

- Collaborated with the marketing team to develop and execute innovative marketing campaigns.
- Conducted in-depth analysis of competitive strategies and customer behavior to inform marketing initiatives.
- Led a team of 10 trainees from various universities to enhance the AIS Project, emphasizing collaboration and teamwork for successful outcomes.
- Developed a new application prototype for demonstration purposes, showcasing innovative solutions to meet project objectives.

SKILLS

React	Next.js	JavaScript	Node.js	MySQL	Git / GitHub
TailwindCSS	Material UI	TypeScript	MongoDB	Docker	AI Prompt

EDUCATION
